April 2015

I punched scallop shapes from cardstock and put an upside down spring wrapped Reese's Cup on them.

I just used a couple glue dots on two edges of the Reese's Cup to hold them onto the scallop. I'm not big on using hot glue on candy that will melt but you could use a low temp glue gun if you wanted.

From there, just a few embellishments of ribbon and a punched shaped flower and stick on rhinestone. I used glue dots to hold on the ribbon and flower as well. That's it.

Pic of supplies I used below:
